1/18/68

Dear Dick,

I asked Miss Brunson to prepare the enclosed memo for you and your evaluation of the photographic evidence and because of your interest in what Thompson has written.

She has raised other interesting points. For example, is Hargis the brother or other relative of the Rev? They are in the same age group, have similiar kinds of first names, etc.

She has pointed out that there seem to be versions of the Altgens picture that are not identical, a flash of light from one motorcycle and a reflection from the windshield wiper arm of the vp car being in the version of the Parallax edition of Torch is Passed.

I'd have sent this earlier but I was away.

When you can, let me know what you think. I think Miss Brunson also would like to hear.

Sincerely,
